

## 48th Annual Technical Meeting of Society of Engineering Science

October 12 - 14, 2011

Northwestern University, Evanston, IL

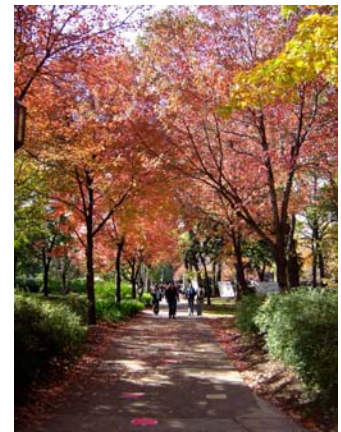

The Society of Engineering Science Technical Meeting is held annually to foster and promote the exchange of ideas and information among the various disciplines of engineering and the fields of physics, chemistry, mathematics, bioengineering and related scientific and engineering fields.

### Co-Sponsors:

- Department of Civil & Environmental Engineering
- Department of Mechanical Engineering
- Theoretical and Applied Mechanics Program

### Tracks - Track Chairs

- Mechanics in Medicine – Cate Brinson
- Fluid, Thermal and Energy - Neelesh Patankar
- Micro and Nano System – Horacio Espinosa
- Computational Multiscale Science and Engineering – Wing Kam Liu
- Mechanics of Materials and Structures – Yonggang Huang

**Evanston** is a short subway ride north of Chicago. It is the perfect combination of college town and bustling small city. Downtown Evanston is just a block from Northwestern's lakefront campus, beaches, and cultural events. Restaurants representing culinary traditions from around the world are just steps from each other. Downtown Evanston is about 40min drive from O'Hare airport.
